Re: Picillo Waste Disposal Site  
Our File Number 82.1015

Dear Mr. Blumstein:

By this letter, I confirm our January 28, 1982 telephone conversation. This firm represents Advanced Environmental Technology Corp (AETC). I have reviewed EPA's January 20, 1983 letter with my client and have discussed same with you and Daniel J. Schatz, Rhode Island Special Assistant Attorney General. As you are aware, I was scheduled to meet with Mr. Schatz on Monday, January 31, 1983, but that meeting was postponed since it is anticipated that a meeting attended by both EPA and State of Rhode Island representatives will be held at a date in the near future.

It is not possible for AETC to indicate the type and extent of the activities it might be willing to undertake in settlement of the Picillo claims until AETC is satisfied that it is a responsible party. As I assured you, in the event there is proof of responsibility, AETC would engage in meaningful negotiations in an effort to equitably resolve this situation. Therefore, I shall attend any negotiations and meetings on behalf of AETC, provided reasonable notice is given.
